DETAILED ACTION

Response to Amendment

The request for continued examination filed 31 October 2007 has amended claims 27, 35, and 41 to comply with claim language agreed upon in a prior interview. Examiner's rejections under 35 USC 112 are withdrawn.

Allowable Subject Matter

Claims 27 and 29-46 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not suggest the claimed subject matter found in independent claims 27, 35, and 41, regarding a polyphase distribution and monitoring apparatus that includes separate visual displays that simultaneously report power information of individual phases. The closest prior art is best represented by Chapel (US 6,628,009), which discloses a polyphase power distribution apparatus, and Kobel (EP324376), which discloses visual display of phase current.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew M. Deschere whose telephone number is (571) 272-8391. The examiner can normally be reached on M-F 9:30-6:00.
